How should my carpets be cleaned?

PLATINUM Property Care recommends regular vacuuming using an efficient domestic vacuum cleaner, however; even the best vacuum cleaners removes only a fraction of the dust, dirt, pet waste, mites and other allergens in your carpet. There are millions of tiny insects and dirt particles that thrive on the stuff your vacuum cleaner doesn't and can't remove. The only way to rid your carpet of these pests is expert and

professional **steam cleaning**.

Because there are so many methods to clean carpets, our professional technicians will recommend the best and safest cleaning method for your investment. They will explain exactly what's going to be done and answer any questions you might have about your cleaning job. *PLATINUM Property Care* will provide you with a complete Service that you expect from truly professional technicians. To see why we are the premiere carpet cleaning service around check out our [About Us](#) page.

How about my furniture's upholstery?

For **Upholstery Cleaning** we recommend regular cleaning of all your upholstered furniture, the time between cleanings will vary depending on your lifestyle. Children and pets tend to make dirt and grime accumulate faster. Also color and fabric type are an important considerations.

No matter what type of furniture or upholstery fabric you have in your home, our technicians are trained to clean them properly and safely. You never have to worry that your furniture will be ruined. But just for piece of mind, we are fully insured up to \$1,000,000.

Pet Stains, Pet Urine & Pet Odor

Mattress Cleaning

Like any other surface we use and come in contact with regularly, mattresses should be cleaned thoroughly. And because it is fair to say that we spend a significant proportion of time in contact with our mattress, this is particularly important.

To make matters worse, many of us, especially children and babies will often wake up with a runny nose, watery eyes, headache or other typical allergy symptoms? In many cases these symptoms are caused by Dust Mites that feed on the dead skin cells we shed while we sleep. These creatures are prevalent in mattresses because of the amount of time we spend sleeping on them.

PLATINUM Property Care can clean the mattresses in your home and also treat them with an Anti-Allergen Post Spray Treatment. This treatment de-natures dust mite allergens to prevent you from suffering so severely.

24/ 7 EMERGENCY Services

Are you experiencing a water damage emergency from a leaky faucet, heavy rain and flood, fire damage, breaking of water pipes, overflowing toilet? Water leaks can cause hidden mold and moisture on wood surfaces, ceiling tiles, wallpaper, paints, carpet,

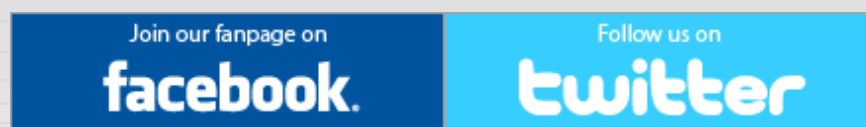

sheet rock and insulation. Water damage should never be taken lightly. Not only can flood water cause damage to your home and business but it can also present a serious health risk.

In the case of a water leak emergency, you'll need someone skilled in flood and water extraction. Our first response cleanup crew is on-call and ready to assist you in case of flood and mold emergency. *PLATINUM Property Care*. We've been rescuing homeowners and businesses for years.

What is the difference between franchise carpet cleaners and your company?

Great question. Many people choose franchise cleaners only because they are familiar with the names of these companies. That's called creating brand awareness and it costs money, lots of it. Naturally that expense is passed on to you the consumer. Also, many of these franchise carpet cleaning services treat their clients like numbers. Doing the absolute minimum before continuing to the next house.

On the other hand, we survive solely on treating our customers' right. We offer personal service and great quality work at less than franchise prices. Don't just choose a carpet cleaning company by its name; choose them by what they can do for you. Give us a call and see the difference!
